

**GM** START

**Service Technical Automotive  
Readiness Training**

## Thinking about your future?

If you have a passion for problem solving, critical thinking, and working with technology, a career as an automotive technician could be a great path for you—

Learn how you can enroll in GM START (Service Technical Automotive Readiness Training)

**With GM START students receive exclusive access to complimentary web-based GM training.**

Students can begin to build a relationship with their local GM dealership at an early age to gain experience in the Automotive Industry.

Upon successful completion of the GM START program, students will have obtained basic automotive dealer training, allowing them to **begin their career straight out of high school**

*The automotive industry is changing. As vehicles become more technologically complex, the demand for skilled, qualified technicians is on the rise. If you have students who are ready to put their talents to work towards their future in automotive, enroll in **GM START TODAY!***
